BUILD-MATE BUILDING MASTIC
Gunnable Pointing Mastic

MATE SEALANT & ADHESIVE RANGE

Description:
An oil based, gunnable pointing and sealing mastic for general exterior building use.

Benefits:
- *Sag resistant.*
- *Low toxicity.*
- *Self repairing skin.*
- *Does not harden under skin.*
- *Over paintable (*check compatibility with paint in a small area before full scale application).*
- *Adheres to most common building materials.*

Uses
Offers superior adhesion to all building surfaces and can be overpainted when fully cures with most conventional oil based paints. Weatherproof in most applications.

Bond It **BUILDING MASTIC** can be used to seal and bed window and door frames manufactured from metal or wood. It can also be used for the maintenance of low rise building joints, seals and flashing and for pointing around precast building materials.

Preparation
All surfaces must be clean, dry, sound and free from dust, oil, loose particles or any other contaminants that may hinder adhesion. Polythene tape or foam backing should be used in movement joints.

Application
Apply using a standard sealant gun. Cut tip from cartridge, be careful not to damage the screw thread. Cut the nozzle at an angle of 45° to an opening slightly larger than the gap to be sealed, and fix to cartridge. Force the mastic into the full depth of the joint, ensuring good contact with both sides.

The material may be tooled to a smooth finish using a wetted spatula, spoon or SEALANT APPLICATOR TOOL.

Tools can be cleaned using Bond It WHITE SPIRIT.

Limitations
Do not use on bitumen or asphalt or where joint movement exceeds 5% of mastic area.

Container Size
EU3 plastic cartridge.

Colours
BUILDING MASTIC is available in 3 colours - brown, stone and white.

Shelf Life
Minimum 2 years from date of manufacture when stored in unopened tubes.

Storage Conditions
Store in cool, dry conditions at a temperature between 5-30°C. Protect from frost.

Disposal of Containers
Do not leave empty containers where residue could be harmful to children, animals or the environment. Remove any containers to a central disposal point in accordance with local regulations.

Health & Safety
Please refer to separate material safety data sheet for full handling, use and storage instructions. Keep out of reach of children. It is the users responsibility to determine suitability for use. If in doubt contact our Technical Department for advice.

Note: this information is for general guidance only, since site conditions and labour are beyond our control. It is recommended that users make their own tests to determine suitability.

Specification Summary

Flammability	Flammable
Sag	None
Joint Movement Accommodation	+/- 5% from mean position
Movement Joint Design	Min depth 12mm (1/2")
	Maximum width 25mm (1")
Filling	Min depth 4mm
	Min width 10mm
