Never compromise on quality!

MADE IN THE UK

STABILIZING SOLUTION

Water-Based Bonding and Priming Agent

BUILDERS COMPLETE RANGE

Description:

A clear, ready to use, water-based treatment for bonding and priming surfaces prior to painting and decorating. Suitable for interior and exterior use.

Uses

For use as a pre-treatment for surfaces which are old, weathered, chalky or porous. Suitable for use on most substrates including concrete, cement, plaster, plasterboard, renders, pebbledash and MDF, etc.

Preparation

Ensure all surfaces are clean and free from any contaminants including loose and flaking material. Remove any mould or algae with MOULD-STOP, PATIO BLASTER or ORGANIC CLEANER prior to application.

Application

Do not dilute. Stir well and apply by brush, roller or airless spray. A second coat may be required on porous or powdery surfaces but allow 12 hours drying time between application of coats.

Limitations

Do not apply **STABILIZING SOLUTION** when the temperature is below 5°C or when rain or frost is imminent. However, this product can be applied to damp substrates.

Cleaning of Tools

Rinse equipment after use with plenty of clean water.

Coverage

6m² per litre, depending on porosity of substrate.

Container Size

5L plastic bottle.

Colour

White liquid.

Shelf Life

2 years from date of manufacture when stored in sealed bottles.

Storage Conditions

Store in cool, dry conditions in a sealed container between 5 & 30°C and protect from freezing and direct sunlight.

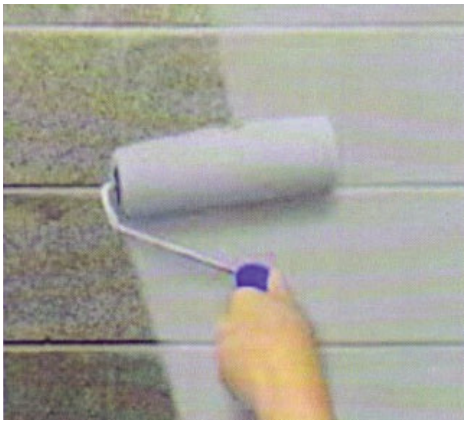
Disposal of Containers

Do not leave empty containers where residue could be harmful to children, animals or the environment. Remove any containers to a central disposal point in accordance with local regulations.

Health & Safety

Please refer to separate material safety data sheet for full handling, use and storage instructions. Keep out of reach of children. It is the users responsibility to determine suitability for use. If in doubt contact our Technical Department for advice.

Note: this information is for general guidance only, since site conditions and labour are beyond our control. It is recommended that users make their own tests to determine suitability.



Specification Summary

Appearance	White liquid
Flammability	Non-flammable
pH	approximately 7-9
Solubility in Water	Soluble
