

CON6+ DRY RIDGE AND HIP SYSTEM

15 YEAR GUARANTEE

CON6+ is a universal ventilated dry fix ridge and hip system that can be used with all the commonly available ridge and hip tile types. CON6+ can be fitted to all roof pitches* with no special tools required. The single unique universal jointing gasket adds flexibility and allows compatibility with the most commonly available ridge and hip tile profiles, including baby ridges.

FEATURES AND BENEFITS

- Unique flexible and trimmable patented gasket features weatherproof, continuous integrated water channels and self-sealing detail for the stainless steel fixing screws
- Broader corrugations of the roll membrane edge compliment a variety of ridge tile designs and different roof pitches
- Suitable for ridge and hip tile applications
- Wider butyl strip provides improved and secure adhesion
- Stainless steel batten straps included
- Dry fix products eliminate the mortar installation and maintenance issues

PACK CONTENTS

1 x 320mm x 6m Rollflex, 13 x universal gaskets, 13 x fixing plates, 13 x 100mm screws, 10 x ridge straps

* Subject to being used in conjunction with ridge tiles suitable for that pitch

PRODUCT CODE

HD CON6
