

# PRODUCT DATA SHEET

# **EVERBUILD STICK2® Rapid Epoxy Tube**

#### INDUSTRIAL STRENGTH 2-PART ADHESIVE SYSTEM

## **PRODUCT DESCRIPTION**

EVERBUILD STICK2® Rapid Epoxy Tube is an industrial strength, two-part, clear adhesive system which, when mixed, sets hard in just 4 minutes. Due to its exceptional strength this product may be drilled, sanded, machined and painted once fully cured.

#### **USES**

Ideal for bonding metals, crockery, glass, wood, china, dry concrete, rubber, fabrics, crystal, jewellery/precious stones and various hard plastics

# **CHARACTERISTICS / ADVANTAGES**

- Industrial strength
- Sets hard in just 4 minutes
- Non-drip formula
- May be drilled, sanded, machined and painted once fully cured

## PRODUCT INFORMATION

Packaging	2 x 12ml tubes
Colour	Clear
Shelf Life	3 years from date of manufacture.
Storage Conditions	Store vertically in a cool, dry ventilated place between +5°C and +25°C. Protect from frost. Storage outside these parameters will dramatically reduce shelf life.

#### APPLICATION INSTRUCTIONS

Ensure surfaces are clean, dry and are free from flaking material, dust, rust and grease. Roughen surfaces with sandpaper to improve adhesion.

Squeeze out equal quantities of the resin and hardener from their separate tubes into the mixing tray provided and mix for 30 secs to 1 minute. Mixed adhesive is usable for only 4 minutes. Only mix small quantities in one go.

Apply adhesive immediately to both surfaces. Assemble and hold/clamp until adhesive starts to cure. Note: adhesive will cure faster at higher temperatures and, conversely, slower at low temperatures. At 20°C the adhesive sets hard in 4 minutes and is fully cured

in 12 hours. Carefully remove any residual adhesive with a sharp knife before adhesive sets.

#### **CLEANING OF TOOLS**

Clean uncured adhesive from tools etc with acetone or nail varnish remover, protecting surrounding surfaces. Cured adhesive must be mechanically removed.

Product Data Sheet EVERBUILD STICK2® Rapid Epoxy Tube June 2018, Version 01.01 020204030010000231

#### **LIMITATIONS**

Do not use to repair items that will contain food and drink

When replacing cap on bottom of nozzles, take care not to cross-contaminate resin and hardener as this will prematurely cure adhesive in the tubes.

As the manufacturer cannot know all the uses their products may be put to jit is the user's responsibility.

As the manufacturer cannot know all the uses their products may be put to, it is the user's responsibility to determine suitability for use. If in doubt, contact Technical Services department for advice or refer to technical data sheet.

#### **VALUE BASE**

All technical data stated in this Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

#### **LOCAL RESTRICTIONS**

Note that as a result of specific local regulations the declared data and recommended uses for this product may vary from country to country. Consult the local Product Data Sheet for the exact product data and uses.

# **ECOLOGY, HEALTH AND SAFETY**

See MSDS for guidance

#### **LEGAL NOTES**

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
